

The Red Collection by Mandy Powers

The Red Collection is a book of 12 patterns for hats and mittens in a simple red, white, black and gray color palette.

I decided a year ago to write a book, and here is the result! The book is self-published, and I am so excited to share it with yarn shops!

The patterns are fun to knit, and great for both beginning knitters and knitters with more experience. Small projects like the ones in this book are also great for teaching special techniques such as knitting in the round (for beginners) and color stranding (for knitters ready to take the next step).

The yarns used in the book are probably yarns that you already carry in your shop! I've included a detailed yarn list on the next page, along with a list of possible substitutions.
